Glynn County Police Hurricane Evacuation Re-entry Plan: What you need to know.

The plan balances the need for restricted access for the protection of the community while allowing residents and business staff re-entry for recovery. If Glynn County calls for an evacuation and is struck by a major storm, the County Police will staff re-entry checkpoints to restrict access. When conditions allow, access will occur in four phases. Residents and business staff are allowed limited access in phases 2 and 3 which may be initiated simultaneously. Conditions evaluated for access consist of roadways being open, availability of potable water, sanitation, food, shelter, electrical power, emergency, and other essential services, public safety issues, etc.

Phase 1: Public works for roadway debris removal, public safety personnel, utility personnel (sanitation, water, electrical, fuel, telephone, etc.), and government personnel, or governmental contractors, are allowed access to restore critical infrastructure, public safety, and health services. Once roadways are open, phase 2 entry is considered.

Phase 2: Business Critical workers are allowed access for damage assessment of hazardous materials, security, and recovery needs, etc. To re-enter Glynn County as a business-critical worker you must have proof of employment with the business and should be listed on the EMA disaster re-entry business registry list. A form of personal ID, such as a driver's license and a business card with your name on it is sufficient proof, or a business ID with your name will suffice for re-entry. To ensure your business and personnel are listed, go to the glynncounty.org webpage, click on EMA, complete the application for business-critical workers, and follow the instructions.

Phase 3: Resident re-entry. Only those who have proof of residency or are employed by a business located in Glynn County and have proof of same will be allowed access. An ID card, such as a driver's license, other government ID, or business ID, that shows your home address or business address in Glynn County is sufficient. An ID of a non-resident of Glynn County with your name matching a business card with a business address in Glynn County is sufficient for access. The policy is to allow for reasonably limited access for those who have a legitimate need to re-enter for recovery purposes.

Phase 4: Full public access.

Public notification Methods: Radio, T.V., web pages of Glynn County EMA, Police, Glynn County, and the Code Red Public message service system. To receive a Code Red message on a cell phone, you must be a Glynn County resident and your cell phone registered. How? Go to the glynncounty.org webpage and click on Emergency Management and then the Code Red tab and follow the instructions.
