### **Detention Pond Certification**

To Whom It May Concern:

Prior to this division issuing a statement that the drainage associated with this project meets Glynn County requirements, the attached form must be filled out and returned to this office. Your engineer must also stamp and sign this form. Failure to return this information to this office will delay our approval, therefore, it is recommended that as soon as you anticipate a completion date for your project, you should notify your engineer immediately.

Should you have any further questions, please contact the Glynn County Engineering Office at (912) 554-7490

By placing my professional stamp and signature on this paper, I certify that this detention pond is constructed according to the approved design on file with Glynn County at the above address. I further certify that all the drainage area designed to drain to this pond in fact does drain to said pond and the outflow from the pond is equal to or less than the maximum outflow as approved by the County Engineer. Calculations to determine the As-Built Storage Volume must be kept in your file in the event they are needed by Glynn County to verify this volume.
