Tropical Storm Isaias Update #3

GLYNN COUNTY, Ga.- Glynn County has been downgraded to a Tropical Storm Warning for the coastal areas and inland areas are under a Coastal Flood Advisory for Monday, August 3, 2020, and into the morning hours of Tuesday, August 4, 2020. A warning means that those areas indicated should prepare for impacts as they are expected soon. No City of Brunswick or Glynn County Offices are expected to be closed on Monday, but some Glynn County Recreation and Parks activities and amenities such as pools will be closed for the day.

As the storm passes on Monday, shelter in place and stay out of the water. These storms can cause strong rip tides and higher than normal waves due to high winds. More than one foot of flooding is predicted in areas that typically flood due to storm surge. If you are unsure if you are in a flood prone area, check out the flood maps for your area here:

<https://glynncounty.org/1658/Web-Flood-Maps>.

Use this as a reminder to continue to prepare for hurricane season.

- Secure loose or lightweight items outside your house or business.
- Finalize your disaster kit.
- Ensure you have extra medications and medical supplies.
- If your medication requires refrigeration, ensure you have a plan in place should you lose power for an extended period of time.
- Make sure all information in your family communication plan is up to date and everyone knows the plan.
- Make provisions for your pet. Make sure they are inside, out of the elements, and have plenty of food and water.
- Flooding is possible in low lying areas; Turn Around Don't Drown!

We will continue to monitor conditions and provide updates as needed. Updates will be available at www.glynncounty.org. We advise the public to use the latest forecast models from the National Weather Service Jacksonville.
